

# CBS NUCLEAR SERVICES, Inc.

A Group CBS Company

## THE SOUTHEAST'S PREMIERE SERVICE SHOP:

- New product inventory
- Replacement parts provider
- Retrofit, retrofill, and cost saver
- Advanced shop testing services\*

\*including magnetron atmospheric condition (MAC) field testing to predict the remaining life of your vacuum interrupters

## CBS Nuclear is the Southeast's premiere service shop for low- and medium- voltage power distribution equipment **sales, testing & repair, and retrofit upgrades.**

### From Contactors to Switchgear, CBS Nuclear Has You Covered:

Circuit breakers  
Switchgear  
Transformers

Substations  
Protective relays  
Switches

Electrical contacts  
Motor starters and motor control centers  
Vacuum interrupters ...and much more

CBS Nuclear specializes in the sale and service of low- and medium-voltage power distribution equipment in the Southeast. We are a one-stop service shop for switchgear, transformers, circuit breakers, protective relay and parts, as well as repair, upgrade, life-extension, and maintenance services.

We have millions of replacement parts, and we can provide you anything from a circuit breaker charging spring to a complete unit substation, either new, surplus, or remanufactured.

Life-extension services are our specialty. By utilizing the latest technologies coupled with our many years of experience and modern shop facilities, we can cost-effectively upgrade your apparatus via retrofit, retrofill, and matching existing lineups.

As a Group CBS affiliate, we provide you access to the industry's largest inventory of low- and medium- voltage apparatus and parts, plus on-site service and comprehensive shop repair, remanufacturing, and life-extension capabilities.

### Nuclear services? Don't let our name throw you off.

Our quality assurance procedures and high standards allow us to be one of the few breaker shops in the country to be certified to work on nuclear safety-related systems. We apply those same quality standards to our many industrial clients in the region that demand the best when it comes to quality and reliability of their power systems.

# CBS NUCLEAR SERVICES, Inc.

A Group CBS Company

# SALES

As a member of Group CBS, CBS Nuclear offers you the industry's largest inventory of **NEW** low- and medium-voltage equipment, **REPLACEMENT PARTS**, and **REMANUFACTURED** electrical equipment to keep your operation running. Have obsolete equipment that has been neglected due to lack of expertise or available parts? Our vast inventory of circuit breakers, parts, technical drawings and specifications allow us to be true solution providers to maintain your power system's reliability, whether it was built in 1945 or 2015.

# TESTING & REPAIR

CBS Nuclear provides advanced **SHOP TESTING AND REPAIR SERVICES**, including emergency response, for troubleshooting your failed electrical equipment. All repairs are tested using calibrated test sets to original equipment manufacturing (OEM) specifications. CBS Nuclear is the only testing facility in the Southeast to offer magnetron atmospheric condition (MAC) testing to predict the remaining life of your vacuum-based gear.

# RETROFIT & UPGRADES

Maximize the return on your electrical assets through our **UPGRADE, RETROFIT, and LIFE-EXTENSION SERVICES**. Improve safety and reliability with the latest solid-state controls and vacuum technology while reusing existing enclosures and ancillary equipment. Need to match an existing, obsolete line-up? It's no problem for CBS Nuclear's engineers.
